PROFESSIONAL SUMMARY

Product Designer (UX/UI) with 3+ years of end-to-end experience in fintech and conversational products. I own the experience of S1NC, a financial planning app powered by Open Finance, where I designed the mobile home screen presented at the product launch and the main analytics dashboard. I make evidence-based decisions — interviews, CX data, Microsoft Clarity and A/B tests — and use AI to speed up benchmarking, prototyping and documentation, working in remote teams alongside Product, Engineering and Legal.

SKILLS

- **Design:** Figma (PRO Figma UI Design certified), Design Systems, high-fidelity prototyping, analytics dashboards and financial data visualization
- **Research & data:** UX Research, usability and A/B testing, Microsoft Clarity (heatmaps and session recordings), CX data analysis
- **AI applied to design:** Claude, Claude Code and Figma Make for benchmarking, rapid prototyping and research documentation
- **Also:** accessibility (WCAG), conversational UX (WhatsApp), Scrum and Kanban, FigJam, Miro, Notion, Jira
- **Languages:** Portuguese (native); English (upper-intermediate)

PROFESSIONAL EXPERIENCE

Product Designer (UX/UI) | W1 Consultoria — S1NC (Contractor) *Mar 2025 – Present*

Remote

Product Designer responsible for the experience of S1NC, W1's financial planning platform, working end-to-end from product discovery to handoff in an agile squad with Product and Engineering. Focused on data-driven design, usability and accessibility, turning complex financial journeys into clear experiences aligned with business KPIs.

Design process

- **Product Discovery:** qualitative UX Research (in-depth interviews) and CX data analysis to map pain points, behaviors and opportunities
- **Synthesis & alignment:** insight documentation, hypothesis definition and alignment with Product and business rules
- **Benchmarking:** competitive analysis and market pattern review
- **Ideation & prototyping:** user flows, information architecture, wireframes and high-fidelity prototypes in Figma
- **Stakeholder validation:** solution presentations and technical feasibility analysis with Engineering
- **User validation:** usability testing, A/B testing and continuous iteration
- **Handoff:** documented specs in Figma and implementation follow-up

Deliverables & results

- Diagnosed the drop-off point in the sales funnel using heatmaps and session recordings (Microsoft Clarity), identifying rage clicks, dead clicks and excessive scrolling, with a direct impact on conversion rate
- Ran A/B tests and comparative studies with user groups, plus quantitative tests on dedicated platforms, ensuring evidence-based design decisions
- Integrated Customer Experience (CX) data into the design roadmap, prioritizing improvements based on the top support requests
- Implemented an AI-assisted design workflow (Claude) for benchmarking, prototyping, rapid validation and standardized research documentation, increasing delivery efficiency
- Evolved Design System components, ensuring visual consistency, scalability and development efficiency

Product Designer | Bia Today *Feb 2023 – Jan 2025*

Poços de Caldas, MG (Remote)

- Designed end-to-end experiences for an omnichannel benefits club, with WhatsApp as the main conversational channel.
- Led strategic UX: persona mapping, end-to-end journeys and information architecture, aligning user needs with business rules and product metrics.
- Prototyped in low, mid and high fidelity in Figma; ran usability tests and qualitative analysis to validate and iterate on solutions.
- Applied accessibility guidelines (WCAG) to build scalable, inclusive interfaces.
- Collaborated with Product, Technology and stakeholders in feedback-driven agile cycles.

EDUCATION & CERTIFICATIONS

Cruzeiro do Sul Virtual — Technologist Degree (CST), Product Design *Jul 2025 – Jul 2027*

Certifications: PRO Figma UI Design and Figma Interface Design (Udemy, 2023) | UX/UI Mentorship (Notorious Design)
